

iCober MultiLock

iCober smart solutions for sustainable cities

Device description

Multi-fraction access control system designed for waste shelters and multi-slot containers. A single device manages up to five independent fractions, significantly reducing installation and maintenance costs. It supports both offline and online operation, depending on the chosen variant.

Key benefits

One device controls up to 5 fractions

Eliminates unauthorized waste disposal

Track containers usage

Recycling efficiency improvements

How it works?

Technical specifications

- ➔ Battery life: up to 2 years (5 ext.)
- ➔ NFC/RFID (13.56 MHz / 125 kHz)
- ➔ Communication: LTE-M / NB-IoT
- ➔ Operating temp.: -25°C to +60°C
- ➔ IP67 rating

Core features

- ➔ Real-time access control and monitoring
- ➔ Notifications & alarms (battery, overfill)
- ➔ Remote user and card management
- ➔ Compatible with most container types
- ➔ Battery supply (plug & play)

Data & analytics

- ➔ Smartphone app (end user & admin)
- ➔ Real-time dashboards
- ➔ Usage history and event logs
- ➔ API integration with external platforms
- ➔ AI data analysis
